## EDUCATION

---

University of California, Santa Cruz

**Bachelor of Science in Computer Engineering: Concentration in Computer Networks**

Santa Cruz, CA  
Expected June 2019

• *Relevant Coursework:*

- Algorithms and Abstract Data Types (Java & C)
- Computer Architecture
- Computer Networks
- Data Structures (Java & C)
- Electronic Circuits
- Microprocessor System Design (C)
- Operating Systems (C)
- Logic Design (Verilog)
- Probability and Statistics for Engineers
- Signals and Systems (MATLAB)

## EXPERIENCE

---

Computer Tips

**Electronics Sales Associate**

Lahore, Pakistan  
August 2017 - September 2017

- Responsible for selling smartphones, laptops and an array of other electronic devices to the customers
- Maintained the sales and inventory records accurately, which resulted in consistent profits and inventory control

Fremont Main Library

**Teen Tech Volunteer**

Fremont, CA  
June 2013 - June 2014

- Worked with ten other volunteers to help older adults learn how to use the Internet, smartphones, digital cameras, Microsoft Office and other online web-based accounts such as social media platforms
- Worked as a leader to make sure the older adults left satisfied and to help guide other volunteers as needed

## PROJECTS

---

Oscilloscope | C, PSoC Creator, PSoC 5LP Microcontroller, Raspberry Pi 3 B+

November 2018 - December 2018

**Academic Project**

- Built a dual-channel oscilloscope that runs on a raspberry pi which is responsible for configuring the oscilloscope parameters, collecting samples from the microcontroller and displaying the data graphically

Personal Website | HTML, CSS

September 2018

**Personal Project**

- Built a responsive personal website from scratch using HTML and CSS

Bank Application | Java, Eclipse

August 2018

**Personal Project**

- Created a program in Java that reads a .csv file of names, social security numbers, account types and initial deposits in order to handle new customer bank account requests

Student Database Application | Java, Eclipse

August 2018

**Personal Project**

- Created a program in Java that manages a student's enrollment in order to keep track of information such as name, grade, student ID, school email, password, courses and tuition

Priority Scheduling | C

May 2018

**Academic Project**

- Implemented priority-based thread scheduling in C for the pintos operating system by implementing the prioritized ready queue, the priority in the concurrency primitives and the priority donation between threads

## SKILLS

---

**Programming Languages:** Java, C, HTML, CSS, Verilog, MATLAB

**Software Applications:** Git, Unix, Eclipse, PSoC Creator, Xilinx Vivado

**Hardware Tools:** PSoC 5LP Microcontroller, Raspberry Pi 3 B+, Basys 3 FPGA Board, Oscilloscope, Multimeter, Function Generator
